

HUNTING LION

Our Lion Hunting is done on 5500 acres and there is NO canned lion hunting done what so ever. What sets us apart from most other Lion Hunting Operators is that we do not offer the “classic category size lions” to our clients. We have only 1 separate pricing for our cats depending on the size of the lion shot.

Example if a client purchases our discount Lion Hunt Package or any Package that has a Lion included, this lion will be a Mature Shooter Male. If the client wants a bigger Lion, we know we have both Mature as well as Big Black Mane Lions on our area. All the client has to do is pay in an additional \$3000 to shoot a Black Mane Lion.

Here are two photos showing a Mature Lion and a Black Mane Lion we have.

Female Lions can also be hunted at an additional \$6000 trophy fee.

If clients request a “MGM” or Monster Lion, this can be arranged on a different area within 2 hours drive from camp. This area is 4000 acres and only Monster Lions are hunted here, but please take note... These hunts are not wild like our main lion hunting area is, these lions will be released roughly a month before the client arrives. Although they do fend for themselves for a month here it is not at all like a Wild Lion Hunting Experience on Lew Harris Safaris main area. We do not offer these hunts to our clients as we would prefer a wild experience, so Price on Request for this type of safari.
